Index to Volume 138

The annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (January): 1–96
Number 2 (March): 97–192
Number 3 (May): 193–288
Number 4 (July): 289–384
Number 5 (September): 385–480
Number 6 (November): 481–568

AUTHOR INDEX

Arvey, R. D., Harpaz, I., & Liao, H. *Work centrality and post-award work behavior of lottery winners.* 404–420.

Beran, T. N., & Violato, C. *A model of childhood perceived peer harassment: Analyses of the Canadian National Longitudinal Survey of Children and Youth data.* 129–147.

Bolin, A. U. *Self-control, perceived opportunity, and attitudes as predictors of academic dishonesty.* 101–114.

Chamberlain, J. M., Haaga, D. A. F., Thorndike, F. P., & Ahrens, A. H. *Metatraits and assessment of attributional style.* 521–531.

Choi, N. *Sex role group differences in specific, academic, and general self-efficacy.* 149–159.

Cramer, D. *Emotional support, conflict, depression, and relationship satisfaction in a romantic partner.* 532–542.

Culhane, S. E., Morera, O. F., & Hosch, H. M. *The factor structure of the Need For Cognition Short Form in a Hispanic sample.* 77–88.

Erwin, P. G., Firth, K., & Purves, D. G. *Task characteristics and performance in interpersonal cognitive problem solving.* 185–191.

Furnham, A., Callahan, I., & Akande, D. *Self-estimates of intelligence: A study in two African countries.* 265–285.

Goh, D. S., Lee, J. A., & Yu, J. *Factor structure of the Strong Interest Inventory with a Chinese high school sample.* 171–183.

Heiman, T. *Examination of the salutogenic model, support resources, coping style, and stressors among Israeli university students.* 505–520.

Higgins, D. J. *The importance of degree versus type of maltreatment: A cluster analysis of child abuse types.* 303–324.

Karakitapoğlu-Aygün, Z. *Self, identity, and emotional well-being among Turkish university students.* 457–478.

Kirby, P. G., Biever, J. L., Martinez, I. G., & Gómez, J. P. *Adults returning to school: The impact on family and work.* 65–76.

Kranz, P. L., & Lund, N. L. *Successful teaching techniques in a race relations class.* 371–383.

Lawson, K. L. *Development and psychometric properties of the Perceptions of Parenting Inventory.* 433–455.

MacLin, O. H., & MacLin, M. K. *The alias advantage and perceptions of guilt.* 339–349.

Maltby, J. *Celebrity and religious worship: A refinement.* 286–288.

McCabe, A. E., & Brannon, L. A. *Application of conversational norms to the interpretation of survey results as a function of participants' need for cognition.* 91–94.

McCann, S. J. H. *Achievement age–death age correlations alone cannot provide unequivocal support for the precocity–longevity hypothesis.* 293–302.

Nelson, J. E., & Beggan, J. K. *Self-serving judgments about winning the lottery.* 253–264.

Netz, Y., & Raviv, S. *Age differences in motivational orientation toward physical activity: An application of social–cognitive theory.* 35–48.

Opt, S. K., & Loffredo, D. A. *College students and HIV/AIDS: More insights on knowledge, testing, and sexual practices.* 389–402.

Oral, G., Kaufman, J. C., & Sexton, J. D. *From empire to democracy: Effects of social progress on Turkish writers.* 223–232.

Ozel, S., Larue, J., & Molinaro, C. *Relation between sport and spatial imagery: Comparison of three groups of participants.* 49–63.

Paolucci, E. O., & Violato, C. *A meta-analysis of the published research on the affective, cognitive, and behavioral effects of corporal punishment.* 197–221.

Purves, D. G., & Erwin, P. G. *Post-traumatic stress and self-disclosure.* 23–33.

Robinson, K., & Ferraro, F. R. *The relationship between types of female athletic participation and female body type.* 115–128.

Sands, R., Maschette, W., & Armatas, C. *Measurement of body image satisfaction using computer manipulation of a digital image.* 325–337.

Schredl, M., Ciric, P., Götz, S., & Wittmann, L. *Typical dreams: Stability and gender differences.* 485–494.

Taris, T. W., & Feij, J. A. *Learning and strain among newcomers: A three-wave study on the effects of job demands and job control.* 543–563.

Tom, G. *The endowment–institutional affinity effect.* 160–170.

Villemarette-Pittman, N. R., Stanford, M. S., Greve, K. W., Houston, R. J., & Mathias, C. W. *Obsessive–compulsive personality disorder and behavioral disinhibition.* 5–22.

Weatherly, J. N., Sauter, J. M., & King, B. M. *The "big win" and resistance to extinction when gambling.* 495–504.

Wicker, F. W., Turner, J. E., Reed, J. H., McCann, E. J., & Do, S. L. *Motivation when optimism declines: Data on temporal dynamics.* 421–432.

Zhang, L.-F. *Revisiting the predictive power of thinking styles for academic performance.* 351–370.

Zhang, L.-F. *Thinking styles: University students' preferred teaching styles and their conceptions of effective teachers.* 233–252.

TITLE INDEX

Adults returning to school: The impact on family and work. *Peter G. Kirby, Joan L. Biever, Isaac G. Martinez, and John P. Gómez.* 65–76.

Age differences in motivational orientation toward physical activity: An application of social–cognitive theory. *Yael Netz and Shulamith Raviv.* 35–48.

The alias advantage and perceptions of guilt. *Otto H. MacLin and M. Kimberly MacLin.* 339–349.

Application of conversational norms to the interpretation of survey results as a function of participants' need for cognition. *Amy E. McCabe and Laura A. Brannon.* 91–94.

The "big win" and resistance to extinction when gambling. *Jeffrey N. Weatherly, John M. Sauter, and Brent M. King.* 495–504.

Celebrity and religious worship: A refinement. *John Maltby.* 286–288.

College students and HIV/AIDS: More insights on knowledge, testing, and sexual practices. *Susan K. Opt and Donald A. Loffredo.* 389–402.

Development and psychometric properties of the Perceptions of Parenting Inventory. *Karen L. Lawson.* 433–455.

Emotional support, conflict, depression, and relationship satisfaction in a romantic partner. *Duncan Cramer.* 532–542.

The endowment–institutional affinity effect. *Gail Tom.* 160–170.

Examination of the salutogenic model, support resources, coping style, and stressors among Israeli university students.*Tali Heiman.* 505–520.

The factor structure of the Need For Cognition Short Form in a Hispanic sample. *Scott E. Culhane, Osvaldo F. Morera, and Harmon M. Hosch.* 77–88.

Factor structure of the Strong Interest Inventory with a Chinese high school sample. *David S. Goh, Jo Ann Lee, and Jiyuan Yu.* 171–183.

From empire to democracy: Effects of social progress on Turkish writers. *Gunseli Oral, James C. Kaufman, and Janel D. Sexton.* 223–232.

The importance of degree versus type of maltreatment: A cluster analysis of child abuse types. *Daryl J. Higgins.* 303–324.

Learning and strain among newcomers: A three-wave study on the effects of job demands and job control. *Toon W. Taris and Jan A. Feij.* 543–563.

Measurement of body image satisfaction using computer manipulation of a digital image. *Rob Sands, Wayne Maschette, and Christine Armatas.* 325–337.

A meta-analysis of the published research on the affective, cognitive, and behavioral effects of corporal punishment. *Elizabeth Oddone Paolucci and Claudio Violato.* 197–221.

Metatraits and assessment of attributional style. *John M. Chamberlain, David A. F. Haaga, Frances P. Thorndike, and Anthony H. Ahrens.* 521–531.

A model of childhood perceived peer harassment: Analyses of the Canadian National Longitudinal Survey of Children and Youth data. *Tanya N. Beran and Claudio Violato.* 129–147.

Motivation when optimism declines: Data on temporal dynamics. *Frank W. Wicker, Jeannine E. Turner, Joylynn H. Reed, Erin J. McCann, and Seung Lee Do.* 421–432.

Obsessive–compulsive personality disorder and behavioral disinhibition. *Nicole R. Villemarette-Pittman, Matthew S. Stanford, Kevin W. Greve, Rebecca J. Houston, and Charles W. Mathias.* 5–22.

Post-traumatic stress and self-disclosure. *David G. Purves and Philip G. Erwin.* 23–33.

Relation between sport and spatial imagery: Comparison of three groups of participants. *Sylvie Ozel, Jacques Larue, and Corinne Molinaro.* 49–63.

The relationship between types of female athletic participation and female body type. *Kirsten Robinson and F. Richard Ferraro.* 115–128.

Revisiting the predictive power of thinking styles for academic performance. *Li-Fang Zhang.* 351–370.

Self, identity, and emotional well-being among Turkish university students. *Zahide Karakitapoğlu-Aygün.* 457–478.

Self-control, perceived opportunity, and attitudes as predictors of academic dishonesty. *Aaron U. Bolin.* 101–114.

Self-estimates of intelligence: A study in

two African countries. *Adrian Furnham, Ines Callahan, and Debo Akande.* 265–285.
Self-serving judgments about winning the lottery. *Julie E. Nelson and James K. Beggan.* 253–264.
Sex role group differences in specific, academic, and general self-efficacy. *Namok Choi.* 149–159.
Successful teaching techniques in a race relations class. *P. L. Kranz and Nick L. Lund.* 371–383.
Task characteristics and performance in interpersonal cognitive problem solving. *Philip G. Erwin, Kathryn Firth, and David G. Purves.* 185–191.
Thinking styles: University students' preferred teaching styles and their conceptions of effective teachers. *Li-Fang Zhang.* 233–252.
Typical dreams: Stability and gender differences. *Michael Schredl, Petra Ciric, Simon Götz, and Lutz Wittmann.* 485–494.
Work centrality and post-award work behavior of lottery winners. *Richard D. Arvey, Itzhak Harpaz, and Hiu Liao.* 404–420.
